OSO-0315-82  
24 FEB 1982

MEMORANDUM FOR: Executive Officer, DDS&amp;T

FROM: [REDACTED]

Executive Officer, OSO

25X1

SUBJECT: Agency Space Projections for FY-1984

REFERENCE: Director of Logistics Memo (Same Subject)  
dtd 12 February 1982 (DDS&T 722-82)

1. The Office of SIGINT Operations (OSO) will have the following additional space requirement for Fiscal Year 1984:

<u>Amount</u>	<u>Per Cent Vaulted</u>	<u>Per Cent Raised Flooring</u>
[REDACTED]	[REDACTED]	[REDACTED]

25X1

25X1

25X1

This requirement is based upon anticipated FY-83 manning and equipment increases for [REDACTED] and will be needed early in FY-84. The compartmentation of this program and the inclusion of Computer Support will necessitate raised flooring, vaulting, special power and ventilation system. (C)

25X1

2. A related requirement is the need for an additional 10,650 ft<sup>2</sup> of space submitted as a FY-83 requirement (See Attachment A). This requirement was addressed as part of a feasibility study to colocate the Collection Analysis and Support Division/OSO with OS&R/NSAC (now DDI) into leased space outside of the Headquarters Building. At this juncture the study has been completed but there has been no decision reached as to how the seriously overcrowded conditions within CASD might be alleviated. A possibility would be to provide Headquarters space to satisfy both the CASD and [REDACTED] requirement. In this event a comparable amount of GSA leased space would be required for some other Agency component. [REDACTED]
